Summary

Highly motivated and determined developer. Check me out at ILYTAT.com

---

Experience

Developer

Mind-Over-Data • Memphis, TN
06/2023 - 07/2023
Worked on projects under senior developers, including database management for St. Jude, PDF Generation for FedEx, as well as minor web modifications within a CMS and existing code. My work also included working within VDI environments, using FTP, specifically FileZilla. Primarily working with Coldbox, HTML, CSS, JS, Vue, MySQL, and MSSQL.

Skills

Computer literacy, Vue, JS, HTML5, CSS, Leadership Experience, Management Experience, Excel, MS SSMS (Microsoft SQL Server Management Studio), MySQL, CMS (Content Management System), Coldfusion, Databases, Database Management, Unity, C#, Time management, English, Documentation review

---

Education

General Studies

Hillcrest High School • Country Club Hills, IL
05/2010
Although I did not graduate, I completed all four years. I was young at the time and chose to begin working full time instead of taking a semester of summer school. I have been teaching myself coding since 2015, and more recently committed strongly to the journey in 2019.
